

**TABLE OF CONTENTS**

**Preface**

**Acknowledgements**

**Executive Summary** ..... i

**Part I - Introduction to the NAS Architecture**

1 Part I Introduction to the NAS Architecture Overview ..... 1-1

2 Introduction ..... 2-1

    2.1 Developing the Architecture ..... 2-1

    2.2 Overview of the NAS ..... 2-3

    2.3 Modernizing the NAS ..... 2-4

    2.4 Free Flight ..... 2-6

    2.5 Role of the Architecture in NAS Modernization ..... 2-7

        2.5.1 Using the Architecture Within the Aviation Community ..... 2-7

        2.5.2 Using the Architecture Within the FAA ..... 2-8

    2.6 Near-Term Risk-Mitigation Activities ..... 2-9

        2.6.1 Free Flight Phase 1 Core Capabilities Limited Deployment ..... 2-9

        2.6.2 Safe Flight 21 ..... 2-9

        2.6.3 Capstone ..... 2-10

    2.7 Summary ..... 2-10

    2.8 Detailed Comments on Architecture 98 From RTCA Free Flight Select Committee ..... 2-10

**Part II - NAS Architecture Supporting Elements**

3 Part II NAS Architecture Supporting Elements Overview ..... 3-1

4 NAS Operations ..... 4-1

    4.1 Concept of Operations ..... 4-1

    4.2 Flight Planning ..... 4-1

    4.3 Airport Surface Operations ..... 4-4

    4.4 Terminal Area Operations ..... 4-5

    4.5 En Route (Cruise) Operations ..... 4-7

    4.6 Oceanic Operations ..... 4-9

    4.7 Traffic Flow Management ..... 4-9

    4.8 Managing the NAS Infrastructure ..... 4-10

    4.9 Summary ..... 4-10

5 Evolution of NAS Capabilities ..... 5-1

    5.1 Introduction ..... 5-1

        5.1.1 Phase 1 (1998–2002) ..... 5-1

        5.1.2 Phase 2 (2003–2007) ..... 5-3

        5.1.3 Phase 3 (2008–2015) ..... 5-3

    5.2 Capabilities Overview ..... 5-4

        5.2.1 Background ..... 5-4

        5.2.2 Assumptions ..... 5-4

        5.2.3 Sample Illustration of NAS Capability Diagram ..... 5-5

    5.3 Summary ..... 5-7

6 Free Flight Phase 1, Safe Flight 21, and Capstone ..... 6-1

    6.1 Free Flight Phase 1 Core Capabilities Limited Deployment Description ..... 6-1

    6.2 Safe Flight 21 ..... 6-2

6.3 Capstone.....	6-4
6.4 Risk Mitigation .....	6-4
6.4.1 Risk Management Process.....	6-4
6.4.2 Risk Mitigation in Free Flight Phase 1 CCLD.....	6-5
6.4.3 Risk Mitigation in Safe Flight 21 .....	6-6
6.4.4 Risk Mitigation in Capstone.....	6-7
6.5 Summary .....	6-7
7 Safety.....	7-1
7.1 NAS Capabilities .....	7-2
7.1.1 Navigation, Landing, and Lighting .....	7-2
7.1.2 Surveillance .....	7-2
7.1.3 Communications.....	7-3
7.1.4 Avionics.....	7-3
7.1.5 Information Services for Collaboration and Information Sharing .....	7-4
7.1.6 Traffic Flow Management.....	7-4
7.1.7 En Route .....	7-4
7.1.8 Oceanic.....	7-4
7.1.9 Terminal .....	7-4
7.1.10 Tower/Airport Surface .....	7-4
7.1.11 Flight Planning .....	7-5
7.1.12 Weather .....	7-5
7.1.13 NAS Infrastructure Management System.....	7-5
7.2 Safety Metrics .....	7-5
7.3 Summary .....	7-6
8 Human Factors.....	8-1
8.1 Human Factors Activities—NAS-Wide .....	8-1
8.2 Life-Cycle Costs, Benefits, and Tradeoffs.....	8-1
8.3 Human Performance Metrics and Baselines .....	8-2
8.4 Consistent Computer-Human Interface Prototypes .....	8-2
8.5 Human-in-the-Loop Simulations .....	8-2
8.6 Task Analysis and Workload Measurement .....	8-3
8.7 Workstation Integration .....	8-3
8.8 Summary .....	8-3
9 Information Security.....	9-1
9.1 Need for Information Security .....	9-1
9.2 Evolution of Information Security .....	9-1
9.3 Scope of NAS Information Security .....	9-1
9.4 Information Security Approach .....	9-1
9.5 Information Security Elements .....	9-2
9.6 Technical Capabilities.....	9-3
9.7 NAS Functional Areas .....	9-3
9.7.1 Communications.....	9-3
9.7.2 Navigation, Landing, and Lighting Systems .....	9-3
9.7.3 Surveillance .....	9-3
9.7.4 Avionics.....	9-3
9.7.5 NAS Information Services for Collaboration and Information Sharing .....	9-4
9.7.6 Traffic Flow Management.....	9-4
9.7.7 En Route .....	9-4

9.7.8 Oceanic and Offshore.....	9-4
9.7.9 Terminal .....	9-4
9.7.10 Tower and Airport Surface.....	9-5
9.7.11 Flight Services.....	9-5
9.7.12 Aviation Weather .....	9-5
9.7.13 Infrastructure Management .....	9-5
9.8 NAS Information Security Cost.....	9-5
9.9 Summary .....	9-6
10 Research, Engineering, and Development .....	10-1
10.1 Air Traffic Services .....	10-1
10.1.1 Navigation, Landing, and Lighting Systems.....	10-1
10.1.2 Surveillance.....	10-2
10.1.3 Communications.....	10-2
10.1.4 Avionics .....	10-3
10.1.5 Information Services for Collaboration and Information Sharing .....	10-4
10.1.6 Traffic Flow Management.....	10-4
10.1.7 En Route.....	10-5
10.1.8 Oceanic.....	10-5
10.1.9 Terminal .....	10-5
10.1.10 Tower .....	10-6
10.1.11 Flight Services.....	10-6
10.1.12 Aviation Weather .....	10-6
10.1.13 NAS-Wide Research, Engineering, and Development .....	10-7
10.2 Airports Technology.....	10-8
10.3 Aircraft Safety.....	10-9
10.4 Human Factors and Aviation Medicine.....	10-10
10.5 Aviation Physical Security.....	10-10
10.6 Environment and Energy .....	10-10
10.7 Program Management.....	10-10
10.8 Summary .....	10-10
11 Regulation and Certification Activities Affected by New NAS Architecture Capabilities .....	11-1
11.1 Ground-Based Components.....	11-1
11.2 Aircraft Components.....	11-1
11.3 Procedures/Rulemaking.....	11-2
11.3.1 Controllers.....	11-3
11.3.2 Pilots.....	11-3
11.4 Summary .....	11-4
12 Personnel .....	12-1
12.1 Factors Affecting Staffing Levels.....	12-1
12.2 Assumptions.....	12-2
12.3 Watch Items .....	12-3
12.4 Summary .....	12-3
13 Cost Overview .....	13-1
13.1 FAA Funding Appropriations .....	13-1
13.1.1 Research, Engineering, and Development Funding.....	13-1
13.1.2 Facilities and Equipment Funding.....	13-2
13.1.3 Operations Funding.....	13-2
13.1.4 Airport Improvement Program Funding .....	13-4

13.2 User Avionics Costs.....	13-4
13.3 Cost Estimate Methodology.....	13-4
13.4 Watch Items .....	13-5
13.5 Summary .....	13-5
<b>Part III - NAS Architecture Description</b>	
14 Part III NAS Architecture Description Overview .....	14-1
15 Navigation, Landing, and Lighting Systems .....	15-1
15.1 Navigation and Landing Architecture Evolution .....	15-2
15.1.1 Navigation and Landing Architecture Evolution—Step 1 (Current–1999) .....	15-2
15.1.2 Navigation and Landing Architecture Evolution (Implementation of WAAS)—Step 2 (2000–2002).....	15-3
15.1.3 Navigation and Landing Architecture Evolution (Completion of WAAS, Implementation of LAAS, Start Phase-Down of Ground-Based Nav aids)—Step 3 (2003–2007).....	15-4
15.1.4 Navigation and Landing Architecture Evolution (Completion of the Phase-Down of Ground-Based Nav aids)—Step 4 (2008–2015) .....	15-6
15.2 Summary of Capabilities.....	15-9
15.3 Human Factors .....	15-9
15.4 Transition .....	15-10
15.5 Costs.....	15-10
15.6 Watch Items .....	15-10
16 Surveillance .....	16-1
16.1 Surveillance Architecture Evolution.....	16-2
16.1.1 Surveillance Architecture Evolution— Step 1 (1998) .....	16-4
16.1.2 Surveillance Architecture Evolution— Step 2 (1999–2002) .....	16-5
16.1.3 Surveillance Architecture Evolution— Step 3 (2003–2006) .....	16-6
16.1.4 Surveillance Architecture Evolution— Step 4 (2007–2010) .....	16-7
16.1.5 Surveillance Architecture Evolution— Step 5 (2011–2015) .....	16-7
16.2 Summary of Capabilities.....	16-7
16.3 Human Factors .....	16-8
16.4 Transition .....	16-8
16.5 Costs.....	16-10
16.6 Watch Items .....	16-10
17 Communications.....	17-1
17.1 Communications System Evolution.....	17-1
17.1.1 Interfacility Communications System Evolution .....	17-1
17.1.2 Intrafacility Communications System Evolution .....	17-6
17.1.3 Mobile Communications System .....	17-8
17.1.4 Data Link Service .....	17-12
17.2 Summary of Capabilities.....	17-16
17.3 Transition .....	17-16
17.4 Costs.....	17-16
17.5 Watch Items .....	17-17
18 Avionics.....	18-1
18.1 Avionics Architecture Evolution .....	18-2
18.1.1 Avionics Architecture Evolution—Step 1 (Current–1998).....	18-2
18.1.2 Avionics Architecture Evolution—Step 2 (1999–2003) .....	18-3
18.1.3 Avionics Architecture Evolution—Step 3 (2004–2007) .....	18-5

18.1.4 Avionics Architecture Evolution—Step 4 (2008–2015).....	18-5
18.2 Human Factors.....	18-6
18.3 Transition.....	18-6
18.4 Costs.....	18-6
18.5 Watch Items.....	18-8
19 NAS Information Architecture and Services for Collaboration and Information Sharing.....	19-1
19.1 Information Services Evolution.....	19-1
19.1.1 Information Services Architecture Evolution—Step 1 (Current–2000).....	19-4
19.1.2 Information Services Architecture Evolution—Step 2 (2001–2004).....	19-5
19.1.3 Information Services Architecture Evolution—Step 3 (2005–2008).....	19-6
19.1.4 Information Services Architecture Evolution—Step 4 (2009–2015).....	19-6
19.2 Summary of Capabilities.....	19-7
19.3 Human Factors.....	19-8
19.4 Information Security.....	19-8
19.5 Transition.....	19-8
19.6 Costs.....	19-9
19.7 Watch Items.....	19-9
20 Traffic Flow Management.....	20-1
20.1 TFM Architecture Evolution.....	20-1
20.1.1 TFM Architecture Evolution—Step 1 (1998).....	20-2
20.1.2 TFM Architecture Evolution—Step 2 (1999–2001).....	20-4
20.1.3 TFM Architecture Evolution—Step 3 (2002–2005).....	20-6
20.1.4 TFM Architecture Evolution—Step 4 (2006–2015).....	20-7
20.2 Summary of Capabilities.....	20-8
20.3 Human Factors.....	20-9
20.4 Transition.....	20-10
20.5 Costs.....	20-10
20.6 Watch Items.....	20-10
21 En Route.....	21-1
21.1 En Route Architecture Evolution.....	21-1
21.1.1 En Route Architecture Evolution—Step 1 (Current–1999).....	21-4
21.1.2 En Route Architecture Evolution—Step 2 (2000–2004).....	21-5
21.1.3 En Route Architecture Evolution—Step 3 (2005–2007).....	21-7
21.1.4 En Route Architecture Evolution—Step 4 (2008–2015).....	21-8
21.2 Summary of Capabilities.....	21-10
21.3 Human Factors.....	21-11
21.4 Transition.....	21-12
21.5 Costs.....	21-13
21.6 Watch Items.....	21-13
22 Oceanic and Offshore.....	22-1
22.1 Oceanic Architecture Evolution.....	22-2
22.1.1 Oceanic Architecture Evolution.....	22-3
22.1.2 Offshore Architecture Evolution.....	22-10
22.2 Summary of Capabilities.....	22-14
22.3 Human Factors.....	22-15
22.4 Transition.....	22-16
22.4.1 Oceanic Elements.....	22-16
22.4.2 Offshore Elements.....	22-17

22.5	Costs.....	22-17
22.6	Watch Items .....	22-17
23	Terminal.....	23-1
23.1	Terminal Architecture Evolution .....	23-1
23.1.1	Terminal Architecture Evolution—Step 1 (Current–2000).....	23-2
23.1.2	Terminal Architecture Evolution—Step 2 (2001–2004).....	23-5
23.1.3	Terminal Architecture Evolution—Step 3 (2005–2007).....	23-7
23.1.4	Terminal Architecture Evolution— Step 4 (2008–2015).....	23-8
23.2	Summary of Capabilities.....	23-9
23.3	Human Factors .....	23-10
23.4	Transition .....	23-11
23.5	Costs.....	23-11
23.6	Watch Items .....	23-11
24	Tower and Airport Surface .....	24-1
24.1	Airport Traffic Control Tower Architecture Evolution .....	24-2
24.1.1	Airport Traffic Control Tower Architecture Evolution—Step 1 (Current–2002).....	24-3
24.1.2	Airport Traffic Control Tower Architecture Evolution—Step 2 (2003–2005).....	24-5
24.1.3	Airport Traffic Control Tower Architecture Evolution—Step 3 (2006–2007).....	24-5
24.1.4	Airport Traffic Control Tower Architecture Evolution—Step 4 (2008–2015).....	24-6
24.2	Summary of Capabilities.....	24-7
24.3	Human Factors .....	24-8
24.4	Transition .....	24-8
24.5	Costs.....	24-8
24.6	Watch Items .....	24-9
25	Flight Services .....	25-1
25.1	Flight Services Architecture Evolution.....	25-1
25.1.1	Flight Services Architecture Evolution—Step 1 (1998) .....	25-1
25.1.2	Flight Services Architecture Evolution—Step 2 (1999–2005) .....	25-2
25.1.3	Flight Services Architecture Evolution—Step 3 (2006–2015) .....	25-3
25.2	Summary of Capabilities.....	25-4
25.3	Human Factors .....	25-4
25.4	Transition .....	25-6
25.5	Costs.....	25-6
25.6	Watch Items .....	25-6
26	Aviation Weather.....	26-1
26.1	Weather Architecture Evolution .....	26-1
26.1.1	Weather Architecture Evolution—Step 1 (1998).....	26-1
26.1.2	Weather Architecture Evolution—Step 2 (1999–2002).....	26-3
26.1.3	Weather Architecture Evolution—Step 3 (2003–2008).....	26-6
26.1.4	Weather Architecture Evolution—Step 4 (2009–2015).....	26-7
26.2	Summary of Capabilities.....	26-8
26.3	Human Factors .....	26-10
26.4	Transition .....	26-10
26.5	Costs.....	26-11
26.6	Watch Items .....	26-11
27	Infrastructure Management.....	27-1
27.1	Infrastructure Management Architecture Evolution .....	27-2
27.1.1	Infrastructure Management Architecture Evolution—Step 1 (1996–1997).....	27-2

27.1.2 Infrastructure Management Architecture Evolution—Step 2 (1998–2002).....	27-3
27.1.3 Infrastructure Management Architecture Evolution—Step 3 (2003–2005).....	27-5
27.1.4 Infrastructure Management Architecture Evolution—Step 4 (2006–2015).....	27-6
27.2 Summary of Capabilities .....	27-6
27.3 Human Factors .....	27-7
27.4 Transition .....	27-7
27.5 Costs.....	27-7
27.6 Watch Items .....	27-7
28 Airports.....	28-1
28.1 Airport Operations .....	28-1
28.1.1 Surface Movement Guidance and Control Goals.....	28-2
28.1.2 Surface Operations Characteristics .....	28-2
28.1.3 Airport Security.....	28-3
28.1.4 Airports Without Air Traffic Control Towers.....	28-3
28.1.5 Airports Without Radar Surveillance.....	28-4
28.1.6 Satellite-Based Navigation.....	28-4
28.1.7 Phasing Down Ground-Based Instrument Approach Aids .....	28-5
28.1.8 Surface Surveillance.....	28-6
28.1.9 Information Sharing and Collaboration.....	28-6
28.1.10 Coordination of Plans.....	28-6
28.2 Airport Development .....	28-7
28.3 Airport Funding .....	28-7
28.4 Summary.....	28-8
28.5 Watch Items .....	28-8
29 Facilities and Associated Systems.....	29-1
29.1 Air Route Traffic Control Centers .....	29-1
29.2 Terminal Facilities .....	29-1
29.2.1 TRACON and Airport Traffic Control Tower Facilities .....	29-2
29.2.2 Large TRACONS.....	29-2
29.3 Flight Service Station Facilities.....	29-2
29.4 General NAS Facilities .....	29-2
29.5 NAS Support Facilities .....	29-3
29.6 FAA Residences (Employee Housing).....	29-3
29.7 Facility Power System Maintenance.....	29-3
29.8 Environmental Concerns.....	29-3
29.9 Facility Security .....	29-3
29.10 Human Factors.....	29-4
29.11 Costs.....	29-5
29.12 Summary .....	29-5
30 Environment and Energy .....	30-1
30.1 NAS Modernization Impact.....	30-1
30.2 Environmental Compliance and Cleanup Program .....	30-1
30.3 Occupational Safety and Health Program.....	30-2
30.4 Energy Conservation.....	30-2
30.5 Property Transfer Environmental Liability.....	30-2
30.6 Research, Engineering, and Development.....	30-2
30.7 Costs.....	30-3
30.8 Summary .....	30-3

31 Mission Support..... 31-1  
    31.1 Strategic Support Functions ..... 31-1  
    31.2 Tactical Support Functions ..... 31-4  
    31.3 Business Operations ..... 31-4  
    31.4 Costs ..... 31-6  
    31.5 Summary ..... 31-6  
32 FAA Regulatory Mission..... 32-1  
    32.1 Aviation Safety Regulation..... 32-1  
        32.1.1 Major Activities..... 32-1  
        32.1.2 Organization and Infrastructure..... 32-1  
        32.1.3 Research and Human Factors ..... 32-2  
        32.1.4 Strategic Initiatives ..... 32-2  
    32.2 Airport Regulation ..... 32-2  
        32.2.1 Major Activities..... 32-2  
        32.2.2 Organization and Infrastructure..... 32-3  
        32.2.3 Airport Safety Research ..... 32-3  
        32.2.4 Strategic Initiatives ..... 32-3  
    32.3 Civil Aviation Security Regulation..... 32-3  
        32.3.1 Major Activities..... 32-4  
        32.3.2 Organization and Infrastructure..... 32-4  
        32.3.3 Research and Human Factors ..... 32-4  
        32.3.4 Strategic Initiatives ..... 32-4  
    32.4 Commercial Space Transportation Regulation ..... 32-5  
        32.4.1 Major Activities..... 32-5  
        32.4.2 Organization and Infrastructure..... 32-5  
        32.4.3 Strategic Initiatives ..... 32-5  
    32.5 Costs ..... 32-5  
    32.6 Summary ..... 32-5
